

DESIGN | BUILD | BEYOND

At Willmar Electric, we are *People Making a Difference for People*.

We are looking for relatable people who crave structure and punctuality. Who lives by the “Golden Rule” and is seeking an employer who is going to recognize you for the value you bring to the company and cares about you as a person, not just a number.

We are a design-build Electrical Contractor seeking Electrical Engineering students who want to experience how an Electrical Contractor works in the construction industry. Our LEAN philosophy along with our Brand Promise gives the interns a unique look at how a contractor can out-perform the norm of the industry.

If you have the desire to learn and grow, you will have opportunities for advancement with Willmar Electric. As we grow and prosper, we want you to grow and prosper with us.

Willmar Electric is accepting applications for an Electrical Engineer Intern in the Willmar, MN area for the Summer of 2021.

Applications can be completed on-line at <https://willmarelectric.com/careers/>

Salary: DOE

Job Summary:

The position provides electrical design, support, research and insight for the Engineering department by working with internal and external customers.

Essential Functions:

- Prepare drawings and sketches to support construction work, change orders, estimates, and other projects.
- Layout basic electrical systems, prepare one-line diagrams, conduit and wire schedules, panel schedules and lighting layouts, including the preparation of specifications for electrical contract drawings, as well as respond to drawing changes with addendums.
- Provide technical engineering input (as required) for estimating and bid proposal requirements.
- Perform specialized electrical design computations and analysis.
- Review “for construction” documents and integrate the information into electrical documents.
- Coordinate electrical design work with Director of Engineering and consultants.
- Attend meetings with other contractors, clients, or A/E representatives to coordinate discipline's design and construction effort.
- Establish and maintain effective relationships with external customers, as well as represent Willmar Electric at meetings with owner/architect.
- Review pre-fab concepts from other trades.
- Demonstrate the ability to adapt to changing priorities or demands, including performing other duties for your supervisor, as directed.

Minimum Qualifications:

2nd year Electrical Engineer Student
Proficient written and oral
communication. Detail orientated.

Preferred Qualifications:

Understand contracts, construction documents, and specifications. Ability to read and interpret all types of construction blueprints. Knowledge and experience in a wide range of electrical construction. Working knowledge of the National Electric Code.

We aim to provide incredibly efficient and innovative solutions that extend far beyond what you'd expect from an electrical service company.

We are seeking someone who knows that profit is essential to a business and will do their best to be efficient in their day to day work so that the company can continue being a business of "People Making a Difference For People".

If you feel that this job fits you, we would love to meet you. Please fill out our application at <https://willmarelectric.com/careers/>

Applicants are subject to a background check. We are an EOE.
